**(E15603) Cobb Well Spill – Mooringsport, LA:** EPA and our contractors continue the cleanup of the oil that discharged from the abandoned well. Approximately, 75 barrels of oil and oil contaminated oil has been recovered. The cleanup is expected to be completed this week.

**Oil Program Meeting (OPM), Washington, DC:** R6 is participating in a national meeting among oil program managers across the country. The meeting is intended to develop a strategic plan and learn from recent events.
